Energy Systems Optimization Certificate Program

● Sponsored by: OSU & DEQ ● Topic(s): Presented by OSU College of Engineering, Architecture & Technology Alumnus Eric Woodroof Ph.D. Dr. Eric Woodroof has trained thousands of professionals in energy management and has accumulated best practices from 6 continents. He served on the CEM Certification Board for 14 years, and is on the editorial board for two major publications regarding energy. He has published several books and articles about energy management in commercial buildings. This program is designed to help attendees understand energy fundamentals and optimize energy systems within a commercial/industrial building. This comprehensive energy management course focuses on the most cost-effective projects that are available in many facilities. Attendees will gain practical cost-saving ideas that can be immediately implemented. Participants will discover how to identify and implement energy savings projects to optimize energy usage and reduce energy expenses. Earn an OSU certificate of course completion for 20 PDHs, 2.0 CEUs. For course details and pricing please go to eatpd.okstate.edu/content/energy-management or email susan.sharpton@okstate.edu ● Location: OSU-OKC Campus, 900 N Portland Ave, Oklahoma City, OK 73111 ● Contact: Susan Sharpton ● 405/744-9225 ● susan.sharpton@okstate.edu

Board and Council agendas often differ from this early calendar description.

Please call the contact person a week prior to meetings listed for more definite information.

If you have any entries for the Calendar of Events, please email to calendarofevents@deq.ok.gov
