Subject: Fujitsu America Inc. E-Waste Compliance Plan

Dear Mr. Bernstein:

On September 24, 2010 the Oklahoma Department of Environmental Quality (DEQ) received your recovery plan. The DEQ has reviewed your recovery plan as required by 27A O.S. § 2-11-605 of the Oklahoma Computer Equipment Recovery Act. The DEQ's review of the recovery plan was to verify your compliance with the Act. After detailed review it has been determined that your plan is compliant with Act. Thank you for your efforts as we continue to work towards a clean and prosperous Oklahoma.

If you have additional questions, please contact me at (405) 702-5218.

Sincerely,

A handwritten signature in cursive script that reads 'Melissa Adler-McKibben'.

Re: Fujitsu America Inc. Recovery Plan

Dear Melissa:

As per our phone conversation on September 23, 2010, AnythingIT (www.anythingit.com) will be administering the Fujitsu America mail-in recovery program whereby there is no cost for the consumer. The program can be found at <http://fujitsu-fedex.anythingit.com/>.

DEP/EPA Approved Recycling

For all equipment designated for recycling, a Certificate of Indemnification (see sample copy) shall be provided for each asset audit report that contains recycled assets. This will ensure that any recycled assets have been properly handled and disposed of according to state and federal environmental laws and guidelines. All refined and recycled hazardous waste materials, including leaded CRT plastics, metals, etc. are received stored, staged and transported in strict compliance with Federal and State environmental laws.

ANYTHINGIT maintains strict safety programs, and high operating standards. They ensure that electronics are handled in a manner that protects human health and is safe for the environment. Additionally in following ISO registered procedures and police of Zero Export and Zero Landfill all materials sent are recycled through our downstream partners state of the art shredding and separation systems. These unique systems completely destroy and segregate product back into raw materials (e.g. metals, plastics, glass, etc.). All material that is processed by our partners are sold to secondary or commodity markets. Precious metals are forwarded to a number of primary refiners for final consumption. Base metals, ferrous, nonferrous, glass, and other recoverable material are sold locally.

We look forward to working with you in managing a complaint and successful program on behalf of Fujitsu America. Feel free to contact me with any questions.

Best Regards,

Dave Bernstein
Director
AnythingIT Inc.

For over 10 years, AnythingIT in partnership with Fujitsu Computer Systems have been partners in offering clients the highest possible return for trade-in as well as compliant e-waste recycling services.

In extending Fujitsu's commitment to both customers and the environment, this joint venture with AnythingIT has evolved into a foundation by which customers can now address the environmental concerns their legacy IT equipment poses. Through this FREE RECYCLING PROGRAM, customers can now have their legacy products recycled for *FREE.

In partnership with the Federal Express (Fedex.com), customers can now ship their legacy and outdated desktops, as well as monitors/displays free of charge to AnythingIT for environmentally compliant recycling. The program also applies to items such as Servers, Storage, Desktops, & Scanners.

4 Simple Steps (There is No Charge for this service)

1. Fill out the information in the form to the right for a FEDEX Pre-Printed Label.
2. Find the closest FEDEX Office or visit <http://www.fedex.com/Dropoff/start>
3. Bring Your pre-packaged Device ONLY with the label to the FEDEX drop off.
4. Affix (tape) the label to box and give to FEDEX Agent for shipping.

Please note AnythingIT is not responsible for any data on equipment received.
