

Kobo Oklahoma Computer Equipment Recover Plan

1. The manufacturer must adopt and implemented a recovery plan, either alone or in cooperation with other manufacturers.

Kobo has adopted an individual recovery plan

2. The recovery plan must fully explain how the manufacturer will collect from a consumer and recover each covered device that is labeled with the manufacturer's brand, at no charge to the consumer.

All of these details are available in the following link.

<http://www.kobo.com/erecycling>

3. The recovery plan must provide for covered device collection services that are reasonably convenient and available.

The availability of a mail-in program is very convenient

4. The recovery plan must be designed to meet the collection needs of consumers in this state.

This plan meets the collection needs of consumers in the State of Oklahoma

5. If the manufacturer does not offer a mail-back system, it must be submitted for approval by the Department of Environmental Quality a plan that offers reasonably convenient collections.

N/A

6. The recovery plan must include a statement that the manufacturer will not dispose of covered devices in landfills or transfer covered devices to computer equipment recycling facilities that dispose of covered devices in landfills other than necessary incidental disposal in de minimis amounts.

This statement is captured in the link's description (see answer 2)

7. If a manufacturer operates or publishes a web site for providing product information about a covered device they must include information about collection and recovery for consumers on their web site. Also must include a link to it in the recovery plan.

This is available in the following link

Hi Melissa,

Would the attached suffice? If so, I will finalize and then send to you.

Kind regards,

James

Subject: Kobo Recovery Plan for Oklahoma

Good Morning,

I have attempted to contact Kobo on several occasions, but have not gotten through. Hopefully this is the correct contact. I coordinate Oklahoma's Electronic Waste Program. The Oklahoma Department of Environmental Quality (DEQ) is notifying all electronics manufacturers who have potential to comply with the Oklahoma Computer Equipment Recovery Act (27A O.S. 2-11-601 et seq.). At this time, it appears that your business meets certain definitions within the Act and/or your business triggers the requirements of the Act with your products. You are required to submit an appropriate recovery plan as required by 27A O.S. § 2-11-605 of the Act.

Please submit a direct contact, email, address, and recovery plan to me. Examples of our recovery plans on file can be found on our website: <http://www.deq.state.ok.us/lpdnew/ewasteindex.html>

Thank you,

Melissa Adler-McKibben, CPM
